

Welcome to the Dog & Pickle drinks menu.

Here you will find a fantastic range of alcohol-free products alongside a well curated wine list and an exciting mix of classic and house cocktails, followed by a conventional list of spirits, liquors, soft and hot drinks.

We hope you enjoy your experience with us here at the Dog & Pickle.

Low & No Alcohol

Rebels 0.0%

Rebels 0.0% is a Swiss operation based in Zurich founded by Christof & Janick who realised that it is always the last drink of the night that you regret the next morning, and that there is often a lack of exciting alternatives to alcohol. Rebels is not anti-alcohol; it just wants to give consumers interesting non-alcohol options when they don't feel like drinking alcohol. Rebels spirit alternative range is double distilled to create added complexity and flavour, and its botanicals are all organic.

Cigars

“Romeo & Juliet” Desde - 22.5

The Romeo y Julieta 1875 Connecticut Nicaragua cigar is a collaboration between Altadis USA’s master blender Rafael Nodal & the famous Plasencia family. The cigar is medium bodied & exceptionally smooth, offering rich flavours of leather, earth, coffee & sweet spice.

Avo Classico No.2 – 49

This mellow to medium bodied cigar is the epitome of class. The Avo Classic is known worldwide as one of the best premium cigars. It uses exclusively vintage Dominican tobaccos for the filler & an elegant Connecticut shade wrapper to give it a little extra flavour. Creamy & overall dreamy, this cigar is delicious.

Winston Churchill –

The Late Hour – 69

Contains tobacco aged for six months in the finest single malt scotch whiskey casks. A full-bodied blend, beautiful, robust flavours of black pepper, dark coffee, old leather, wood & spice. Churchill would be proud of this one.

Allergen Advice for your Information

All our wines contain sulphites.

With the new labelling regulations you may come across statements that your wine may contain milk or egg. This is used for one purpose only, fining, i.e. the removal of sediment, crystals and any other natural deposits that form in wine during its production.

Egg is used in the form of albumen in reds and casein from milk in whites. Also some producers may use isinglass (fish gelatine) As the fining agent is added to the tank of wine it will naturally rise to the top of the tank taking with it the unwanted deposits. The wine is then run off for bottling from the bottom of the tank and levels the deposit and approximately all of the fining agent behind. We are assured by producers that tiny amounts, if any will actually make it into the wine. Another agent which could but used is bezimaite, a form a clay. This is what will make the wine suitable for vegetarians and vegans.

Over the tried and tested years of wine making, winemakers use this as the best way to remove deposit. Another way is to pump the wine through thick gorses which will ultimately take away essential flavours in the wine. This is often used in the bulk mass market produced wines as its the cheapest way to remove the deposit.

Additional allergens (used in the fining process) are indicated by the symbols below:

(M) = Contains Milk

(F) = Contains Fish

(E) = Contains Egg

(VE) = Suitable for Vegans
