REBELS 0.0%

0.0% 35ml **5.5**

Rebels 0.0% is a Swiss operation based in Zurich founded by Christof & Janick who realised that it is always the last drink of the night that you regret the next morning, and that there is often a lack of exciting alternatives to alcohol. Rebels is not anti-alcohol; it just wants to give consumers interesting non-alcohol options when they don't feel like drinking alcohol. Rebels spirit alternative range is double distilled to create added complexity and flavour, and its botanicals are all organic.

All our wines contain sulphites.

With the new labelling regulations you may come across statements that your wine may contain milk or egg. This is used for one purpose only, finning, i.e. the removal of sediment, crystals and any other natural deposits that form in wine during its production. Over the tried and tested years of wine making, winemakers use this as the best way to remove deposit. Another way is to pump the wine through thick gorges which will ultimately take away essential flavours in the wine. This is often used in the bulk mass market produced wines as its the cheapest way to remove the deposit.
